Re: Water Right Change Authorization No. **CS4-00666CTCL**

Dear Gerald E & Janis Anderson:

In response to your request, the development schedule for the above referenced water right has been extended as follows:

**Complete Construction: April 1, 2016**

Basis of extension approval:

- Another illness and subsequent surgery by the principal permit holder has prevented completion of the project.

Please be advised that extension approvals by themselves do not constitute an exemption from relinquishment. The water right holder must put the full amount of water to beneficial use once every five years regardless of the time allotted for completion of the project.

Additionally, it is Ecology's understanding that Diversion #1 is fully operational. The above-referenced Change Authorization is provisioned such that when water is being used to irrigate, it is your obligation to record bi-weekly (every two weeks) meter readings and to report those readings to Ecology by January 31<sup>st</sup> annually. You are also required to report acreage irrigated, places-of-use (maps), crop history, and information about any new irrigation system. According to our files, no such information has been reported to Ecology to date.

Please mail in the enclosed *Completion of Construction Notice* by the deadline. If you have any questions, please contact Candy Graff at [cagr461@ecy.wa.gov](mailto:cagr461@ecy.wa.gov) or (509) 454-4264.
